

A1 Rubber saves up to 200,000 passenger tyres from landfill every month

Recreational spaces are a popular and highly
sought-after use for upcycled tyre products

INSTALLED BY
UP
urban play

UPCYCLED
AUSTRALIAN
TYRES

Installers play a crucial role in fueling the demand
for this invaluable resource by selecting A1 Rubber
tyre-derived products for installation

Upcycling is the process of
converting waste materials or useless products into new
materials or products of better quality or for better
environmental value

TSA CIRCULAR ECONOMY COLLABORATOR

A1 Rubber is recognised for playing a role in utilising
Australian generated tyre derived material, contributing to
a sustainable society.
