Message from the Chairman

Dato' Ismail bin Ngah
IFPRA 2005 Asia Pacific
(Kuala Lumpur)
Organising Chairman

Selamat Datang and a warm welcome to all participants of the IFPRA2005 Asia Pacific Congress, Kuala Lumpur

Malaysia is proud to host the 2005 Congress and we are delighted to showcase Kuala Lumpur, our 'Sustainable Tropical Garden City'. The theme for the Congress is 'Creating a Lifestyle'. At the Congress we will bring to you some of the efforts of our nation in motivating the people of our city to progress to a lifestyle where 'green planning, conservation & management'. These have been incorporated in all aspects of our development.

The months of August through September are important months for Malaysians; as we celebrate our National Day or fondly known as "**Hari Merdeka**". And as an added attraction to the Congress, all registered delegates will be invited to join in with our nation at our 48th National Day Celebrations at Putrajaya, Malaysia's administrative capital, on 31st August 2005. Witness first-hand Malaysia's diverse cultural heritage in this annual colourful parade.

We invite you to register for IFPRA2005 Asia Pacific Congress for an unforgettable learning experience. Come enjoy Malaysia, which is truly Asia.

We look forward to welcome you.

Congress Theme - Creating a Lifestyle

Stepping into the new millennium marked the start of a new lifestyle where Human, Technology & Innovation co-exist and live in symbiosis. In our daily lives, we can all do more to reduce the use of our planet's resources and the damage we do to our environment. It has often been said that we should reduce damage to Mother Earth for our children and grandchildren to ensure they live in the same quality lifestyle that we enjoy today, if not, better. Creating a new lifestyle which is friendly to the environment requires long term research and education to the general public.

Sub-Themes :

1. Utilizing Resources

The Natural Resources Element is dedicated to landscape encompassing its natural features. It serves to outline goals and objectives for the effective protection, preservation, conservation and utilization of the natural environment for the future benefit of mankind.

2. Community Participation

Community participation presents a platform for the discussion on the importance and opportunities for people to participate in decisions affecting their community and for the improvement of their life.

3. Recreation and Tourism

Tourism and recreation related development is one of the major factors shaping development patterns in this region. It embraces the full range of tourism, leisure, and recreationally oriented activities. These include tourism development and the infrastructure supporting the development. Also included is eco-tourism and recreational activities.

The discussion topics will cover amongst others such as planning and management; efforts at attaining healthy ecosystems; restoration programs; management of security and special management challenges posed by eco-tourism activities.

4. Best Practices in Management Administration

The methodology and skills to minimize potential impact to the environment through effective management and administration of our parks and natural resources.

The Venue

Putra World Trade Centre (PWTC)

The Congress venue is located at the Putra World Trade Centre (PWTC), which is located in the heart of Kuala Lumpur, the capital city of Malaysia. The Centre plays host to over 1,000 events per year. Occupying an area of 133,000 sq.ft, the Centre has one Plenary hall, 2 multipurpose halls, 3 exhibition halls, 17 smaller meeting rooms, 1 press conference room and VIP suites.

To know more about Putra World Trade Centre (PWTC), please visit
<http://www.pwtc.com.my/pwtc>

The Host City - Kuala Lumpur

Kuala Lumpur Welcomes You !

Located in the heart of South East Asia, Malaysia is divided into Peninsular Malaysia (West Malaysia) and East Malaysia. The capital, Kuala Lumpur, lies midway along the West Coast of Peninsular Malaysia. Kuala Lumpur represents the heartbeat of Malaysia, serving as its cultural, commercial and transportation centre.

It all began in the Middle of the 19th century when a group of tin prospectors came to settle around the convergence of the Klang and Gombak river. This marked the foundation of Kuala Lumpur which has become metropolitan centre of today.

With a population of over 1.3 million, Kuala Lumpur is by far the largest city in Malaysia. Malays, Chinese and Indians comprise the main races among others in this multicultural backdrop. This ethnic diversity has shaped the city over the years and is clearly seen in the various cultural customs and religious beliefs, as well as languages, cuisines and architecture.

Better known as KL to the locals, the city is a heady mix of history and culture intertwined with mushrooming skyscrapers and office towers. Kuala Lumpur is the best example of a city that has managed to preserve the best of its cultural heritage and combine it with modern conveniences to offer a wholly unique experience to visitors.
